
Race-distance efforts (half-marathon and marathon distance at 80% of HRmax or more): 4,957 efforts, 1,217 runners (efforts per band: <10 1,570, 10–15 1,424, 15–18 683, 18–22 725, 22–26 463, ≥26 92). Second half minus first half of each effort, by distance. Runner fixed effects, runner-clustered 95% CI; hollow marker = reference band. Fixed slowing: second-half slowing entered as a covariate (−0.149 cadence % per 1% of slowing).
